Sir,

I have the honor to state that the Municipal Regulation has been in force since the 1st December 1888 but for want of Bye-laws much difficulty is experienced in applying the same to prevent offences. The following Sections 152, 153, 154, 155, 156, 157 and 158, are for regulating the better conservancy of the city, but they are more general than definite.

2 There is a special provision

For President

establishment for cleaning the city but it is mainly utilised for sweeping the streets, lanes and drains. It must be admitted that more remains yet to be done to improve the sanitation of the town. The most important part is to introduce daily conservancy by prescribing the nature of the latrines and removal of night soil and also enforcing house owners to keep their backyards clean.

3. In this city few houses have got daily scavenging system, the majority of them having pits or cess-pools wherein all the rubbish is thrown and allowed to remain there for years together must be the detriment of public health in the neighbourhood. Even the

water is let into it. For want of conservancy lanes in some quarters, such pits filled with night soil and other obnoxious matter are covered up without the contents being removed and fresh ones are opened in their places, without any idea of danger to human health.

4. It is unnecessary to bring to your notice that the Bubonic Plague is raging in the Bombay Presidency and in some parts of Hyderabad. It is high time for us to be prepared for the worse when the epidimic once breaks out, it will be impossible to get rid of it, unless prompt and energetic measures are adopted. Therefore it is very necessary to [illegible]

Therefore I beg to ~ request- that- you will kindly ~ obtain the sanction of the Govern- -ment- for introducing the enclosed Bye-laws prescribing rules for ~ constructing privies, pits and the daily removal of night- soil.

A copy of the resolution of the ~ board approving the adoption of the above Bye-laws is herewith ~ enclosed for perusal.
